DETAILED ACTION

Allowable Subject Matter

Claims 1-2, 8, 10 are allowable over the prior art of record for at least the reason that even though the prior art discloses a color wheel assembly wherein the color filter disk is fixed between a first and a second carrier, the two carriers having respective joining portions in contact with each other, the prior art fails to teach or reasonably suggest, a color filter assembly comprising a first and second joining portions connected to each other, wherein the first and second joining portions are threaded and joined together, as set forth by the claimed combination.

Claims 4-7, 11-14 are allowable over the prior art of record for at least the reason that even though the prior art discloses a color wheel assembly wherein the color filter disk is affixed to a carrier via the use of an aligning pin, the prior art fails to teach or reasonably suggest a color filter assembly comprising a first carrier, a second carrier, and a color filter, each having a first hole, a second hole and an opening, respectively, and including a securing member having at least a rod fastened through the first hole, the opening and the second hole such that the color filter is fixed between the first and second carriers, as set forth by the claimed combination.
